The screenshot shows the Tableau Desktop interface. On the left sidebar, under 'Connections', 'matches' is selected as a 'Text file'. Under 'Files', 'deliveries.csv' and 'matches.csv' are listed. The main workspace shows a relationship diagram with 'matches.csv' and 'deliveries.csv' connected by a line. Below this, a dropdown menu shows 'matches.c... — deliveries...'. The 'Name' field is set to 'deliveries.csv'. The 'How do relationships differ from joins?' section shows a relationship between 'matches.csv' and 'deliveries.csv' with the operator '=' and the field '# Match Id'. The 'Performance Options' section is expanded. The data preview table shows the following data:
